

To begin, congratulations! We are so excited to be a part of your big day. We are here to help you along the way for all things tents, & everything else that will go under it for your magical day.

When Should I Book My Tent?

Just like venues, churches, caterers, and other vendors, special event tents begin booking about a year in advance. We want to secure exactly what you are looking for as soon as we can.

How Do I Know If A Tent Will Fit At My Venue?

During an initial conversation with our Wedding Specialist and Tent Manager, we will gather the information needed for a general idea of what will work at your venue. Following that, we will look into scheduling an onsite measurement of the space to confirm final specs that will work for both you & your event.

Do I Really Need A Tent?

Don't take the chance of rain ruining your perfect day, or guests being too hot if they are not shaded. Some tents are a must, such as reception & catering tents. Other tents are option, such as ceremony, cocktail hour, and walkway tents.

What Type Of Tent Works Best For Me?

Pole Tents work best on a grassy area, as they are secured with stakes.

There will be at least one center pole supporting the tent. Many people like this look for its elegance and simplicity.

Frame Tents can be placed on relatively any surface. There are no center poles to obstruct your view or event layout. There are various types of frame tents available, including clear top upgrades.

What Upgrades Can I Add On?

Draping of the ceiling or a full liner can dramatically change the atmosphere of your event. Any form of draping will soften the look while adding a touch of elegance. Leg skirts are also a great way to accessorize your tent.

Lighting changes the look and sets the mood. From a romantic outdoor café in Rome, to Cinderella's Ball, to the hottest club in NYC, your dream becomes a reality with lighting.

Flooring makes otherwise unusable spaces usable, and completes your custom wedding venue we are creating.
